## Support for The Therapy - Fun Cycle Project

Permian Basin Area Foundation recently made a grant to our local Midland Downtown Lions Club to support the Therapy - Fun Cycle Project, which provides tricycles to children with disabilities and mobility impairments.

Last weekend, I had the opportunity to observe the assembly, delivery, and fitting of the cycles for local children in need and the participation in the event by their families. I was overcome by the heights of pleasure and joy experienced at this event-especially the children whose capacity had been previously limited to mobility in a wheelchair.

On their new cycles, they can look forward to many years of fun not to mention therapy of infinite value to their health.

Lions Clubs across the country are doing great work in the Therapy - Fun Cycle Project, and I encourage other foundations to take note and generously provide financial support.

Congratulations and THANK YOU to the Lions, your Therapy - Fun Cycle Project is amazing and priceless to the many children served and their families.
